

THIRD EDITION

OCTOBER 2019

ICEFLU - NOVA DIMENSÃO

SANTO DAIME INFORMA

OUR COMMUNITY VISION IS THE FRUIT OF THE
TRUE SPIRITUAL WORK OF SEBASTIÃO MOTA DE
MELO. IT'S TIME FOR THE PEOPLE OF THE
SANTO DAIME TO UNITE!

BUILDING THE DREAM

Progress on the new Church of the Forest project: the assembly of the steel structure is now underway. In the above photo, the central tower for raising and installing the roof components. Below, a support column comprising the foundation of the mezzanine.

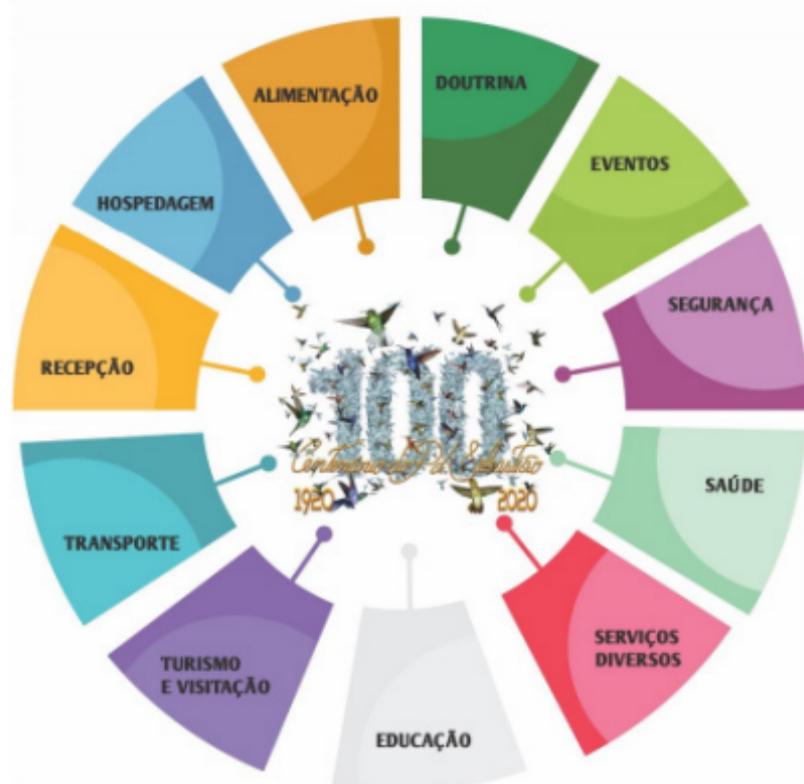

INSTITUTIONAL

The process of our institutional restructuring continues. This month, representatives of ICEFLU visited the United States to attend a conference of CEFLURGEM, one of the institutions that represents the Santo Daime in the US. New institutional paths were opened and the international fellowship spent time together.

MAPA DA ORGANIZAÇÃO COMUNITÁRIA

CENTENNIAL

The countdown has begun. The **Residents' Association of the Vila Céu do Mapiá**, the Master Plan team, AMAGAIA, and the organization committee for Padrinho Sebastião's centennial are all preparing for everything that will occur in the commemorative year. In a meeting held recently, discussions took place about the planned activities for the calendar and groups were created corresponding to each sector of the organization.

Center for the new temple (Photo: A. A. A. A. A.)

Page 10

The construction of our new temple asks for a new time. A Time of spiritual and material improvement of our brothers and sisterhood, institutions and communities. Time to value our communal approach and its sustainability. Time to mature our

opinions and procedures, preparing the individual and collective journey toward a new era, a new dimension, in connection with Padrinho Sebastião's prophecy: "New time, new people, new system".

2020: CENTENARY AND MORE

On October 7, 2020, Padrinho Sebastião would celebrate his one hundredth birthday. Good reason to celebrate the year 2020 in full of special celebrations. Besides the planned inauguration of the new temple (from the roof and floor, then the final touches), we have the 70th birthday of Padrinho Afonso, the 60th of Madrinha Tereza and much more. Page 12.

AMVOM APPOINTS A NEW BOARD OF DIRECTORS

The Association of Residents of Vila São da Mapiá - AMVOM - elected a new Board of Directors in December 2019, with more than 40 members. Among the challenges, faced with vision and participation of the members and community, the schedule of events in 2020, administrative sustainability, the Wage Market Plan, and sustainable community development. Page 8.

AMAGAJIA PROGRAM: COMMUNITY SUSTAINABILITY SUPPORT IN MAPIÁ

With the support of IZSIA through the Nasa Gu Institute and Amajia Program, and with the intense participation of local institutions and groups, residents and the immediacy, numerous community sustainability projects are being undertaken in Vila do Mapiá. Page 15.

CÉU DO MAPIÁ

Check out the online edition of the Jornal do Céu, with news about all the activities in our village, as well as in other Daimista communities in Brazil and worldwide. Special words from our Padrinhos and Madrinhas, articles, event information and much more. Access the online edition:

VIVA OUR FEITIO!

The closing of the **Feitio School at Céu de Maria**. Thirty-six pots were produced which will serve the Irmandade of the Santo Daime. The schedule continues with the next stop in Belém, Pará. This will begin on October 27 and continue through November 6.

CEDOC

CENTER FOR DOCUMENTATION AND MEMORY OF THE DOCTRINE

Thanks to international support from the Irmandade, we are building an archival office for our growing media collection. Soon we will have a climate- and humidity-controlled room to help preserve all of our original material, in the **Céu da Montanha** community. The work continues.

contact: cedoc@iceflu.org.br

NOVEMBER 2

DAY OF THE DEAD - FINADOS

At the beginning of November, the Santo Daimé community will be reunited in their respective centers, singing the hinários of the Four Companions of Mestre Irineu, on the day of the Finados - All Souls' Day. We wish everyone a great work and a strong prayer for the souls.

COMMUNITARIAN MANAGEMENT

By means of low-impact harvesting techniques, the **Nucleus of Comunitarian Timber Management** of the Vila Céu do Mapiá plans for forest timber management to make viable the generation of income and also to guarantee the conservation and maintenance of the forest. Two harvests have taken place, involving more than 40 people from the community. The Workshop and School of Timber Milling and Woodworking is under construction, and it will be run by means of renewable energy, making possible the self-sufficiency of timber and strengthening the community economy.

ANALYSIS OF CONSUMPTION

The IDARIS institute, in collaboration with the AmaGaia program and the institute of Socioeconomic Support (ISES), generated an analysis of production and consumption in Mapiá. The results will help the community in the search for opportunities to strengthen the local production and consumption, generate more work and income, improve the quality of products and services and strengthen the economic support in the Vila.

Vantagens do consumo local:

RADIO JAGUBE

The "Voice of Mapia's Integration" - Radio Jagube - was re-inaugurated. The local radio station was created in 1988, administered by Roberto Santagata and immortalized in the voice of Lúcio Mortimer. Anybody can tune in at 100.3 FM within 10 km of the Telecentro. The Irmandade of the Vila can now join in for daily prayers and hymn studies, listen to great music and stay in the know with community news and the network of the Irmandade.

EMMANUEL

A TRANSMUTAÇÃO DA
HUMANIDADE

CANALIZADO POR ISABEL BARSÉ

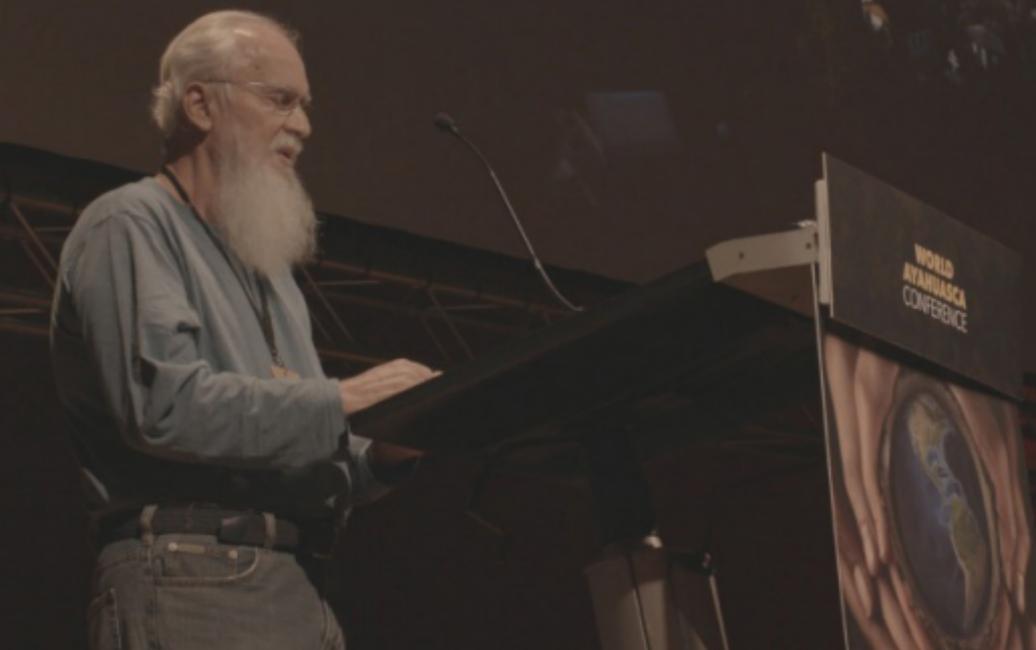

BOOK RELEASE

"The Transmutation of Humanity", a book channeled by Isabel Barsé, is now in stock for purchase. All income from the book is donated to the Padrinho Manoel Corrente Santa Casa de Cura.

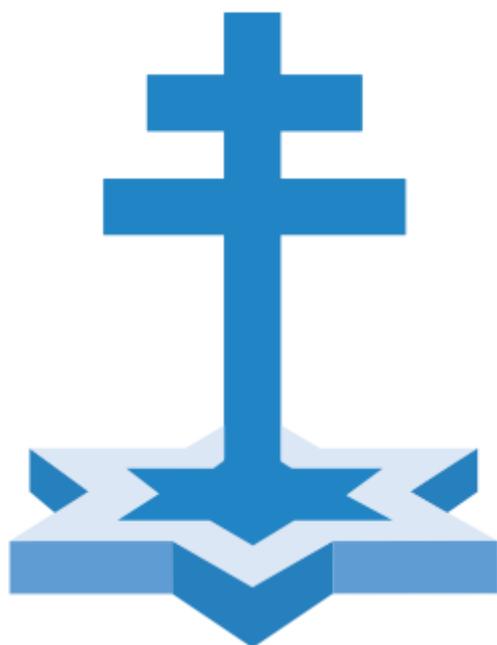

Mapiá.

NEW VIDEOS

This month, Canal Jagube - The Jagube Channel- released material about the AYA2019 conference, with a beautiful institutional narrative and an honoring of the birthday of Padrinho Alex Polari, who represented the Institution at the global ayahuasca meeting which was held in Catalonia, Spain. **Follow the Channel on Youtube.**
